TECHNICAL SKILLS

Programming Languages

C#, JavaScript (ES6+), Python,
Node.js (basic), Express.js (basic)

Frameworks & Libraries

.NET Core / ASP.NET (MVC, Blazor)
Entity Framework, React.js,
Django, Flask (basic)

Databases

SQL (SQL Server, PostgreSQL)
MySQL, MongoDB

Cloud & DevOps

Azure, Docker, Git / GitHub

Web Development

HTML, CSS (Flexbox, Bootstrap),
REST API (development &
consumption), Authentication &
Security (OAuth, JWT, Identity
Server, role-based authorization)

Software Development Practices

Agile (Scrum) , CI/CD (basic
knowledge) , Microservices and
Kubernetes

Tools & Technologies

Visual Studio, VS Code, Git/GitHub,
SQL Server Management Studio,
MongoDB Compass, MeiliSearch,
Postman, Swagger, Trello, Figma,
Slack

ABOUT ME

Junior Software Developer with a passion for building **scalable, efficient applications**. Experienced in developing **backend services, APIs, and full-stack applications** using **.NET, C#, JavaScript, and Python**.

Certified in **Full-Stack Development (IBM)**, **Backend Development (Meta)**, and **C# (Microsoft)**. Skilled in **Agile development**, problem-solving, and writing clean, maintainable code.

Open to new opportunities | Available immediately

WORK EXPERIENCE

Full-Stack Developer (LIA Internship)

Ahum AB – Stockholm, Sweden | Apr 2024 – May 2024

Key Achievements:

- Developed a user-generated comment management system, improving data organization and visibility.

Responsibilities:

- Implemented dynamic content display and storage logic in a .NET-based application.
- Enhanced data retrieval efficiency using C#/.NET for backend and JavaScript for frontend.

.NET Backend Developer (LIA Internship)

BildHistoria Förening – Stockholm, Sweden | Sep 2023 – Apr 2024

Key Achievements:

- Designed an image upload and validation system handling large CSV imports, ensuring 99% data accuracy.
- Developed a C# console app that automated CSV data processing, reducing manual workload by 80%.

Responsibilities:

- Created Swagger API endpoints for image uploads and validation.
- Integrated Azure Blob Storage for scalable image storage.
- Built backend functionality using C#/.NET, Docker, and Azure to improve platform performance.

Additional Experience

IT Support Technician & Machine Operator | Prior to 2022

- Gained technical troubleshooting and customer support experience as an IT Support Technician.
- Worked as a heavy machine operator, developing problem-solving skills and attention to detail in high-precision tasks.

EDUCATION

.NET Developer
(Higher Vocational Diploma)
IT- Högskolan Stockholm
(2022 – 2024)

- ✓ Focused on C#, .NET, JavaScript, SQL, and MongoDB.
- ✓ Hands-on experience in full-stack development & Agile (Scrum).

SOFT SKILLS

- ✓ Problem-Solving & Analytical Thinking
- ✓ Collaboration & Teamwork
- ✓ Adaptability & Continuous Learning
- ✓ Attention to Detail & Quality Focus
- ✓ Self-motivation and Initiative

LANGUAGES

- ✓ English – Fluent
- ✓ Swedish – Professional level
- ✓ Romanian - Native

CERTIFICATES

IBM Full Stack Developer Professional Certificate – IBM & Coursera

Covers JavaScript, HTML, CSS for frontend, and Python for backend development.

Meta Backend Developer Certification – Meta & Coursera

Focused on backend development using Python, Django, databases, and APIs.

Microsoft Foundational C# – Microsoft & freeCodeCamp

Covers fundamental C# concepts, syntax, and object-oriented programming principles.

MongoDB C# Developer Path – MongoDB

Provides hands-on experience with MongoDB and C# integration for building scalable applications.

Relational Database Certification – freeCodeCamp

Covers SQL queries, database design, and normalization techniques.

Develop an ASP.NET Core Web App That Consumes an API – Microsoft

Focuses on ASP.NET Core development and integrating RESTful APIs.
